I did not make it to LA for the pre-Oscar events. Not that I didn't try mind you, but I had "sudden onset" stomach flu that had me horizontal for 10 hours on Friday. I missed **Michael O'Connor's Style Lab for Oscars 2015!** I was so disappointed since it's one of my favorite things to do.. talk jewelry and do the video. There is no video but I do have a blast from the suite on hot Oscar trend jewelry!

Here are his red carpet trend predictions:

Edgy Earrings

Ear cuffs and climbers are all the rage on the red carpet. For the Oscars, we'll see them taken to another level with major diamonds and spectacular designs. Dena Kemp crafted a snake ear cuff with over 2 carats of diamonds, set in 18k gold. This would look stunning on Rosamund Pike.

Susan Eisen showcases a *hand-fabricated pair of ear climbers made with 3 carats of diamonds, set in 14k recycled white gold*. Priced at \$17,800, these earrings are the perfect fit for fashion's "It Girl" Felicity Jones.

Thanks to Michael O'Connor and Style Lab for the scoop on hot trends for Oscars 2015!! If I get lucky, I might snag some time with Michael to talk about who wore what!
