DANA REBECCA DESIGNS

PRODUCT DETAILS ▶ 14K white gold with turquoise and diamonds

SUSAN EISEN'S PITCH ▶ "These have a beautiful symmetry in that they use very unusual materials to create the shape. The mix of turquoise, white gold and diamonds transcends whatever style you wear throughout the day. For my customer in Texas, this is anything but the Native American style turquoise that they have become so used to seeing. The designer has given this an old classic style and elegance."

MSRP ▶ \$6,160

"Short, long, wide, narrow, stiff or dangly, I can never have enough styles of earrings. Although trends don't catch on as quickly here as in big fashion cities, I still try to promote certain directions, particularly since women want a strong and diverse earring wardrobe."
